REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1-9 & 32 is the inclusion of the limitations of a thermal printer that includes an edge detecting sensor for detecting said first lateral edge; heating element determination means, responsive to an output from said edge detecting sensor, for determining N edge region heating element included in said heating elements, opposed to said recording material, and disposed close to said first lateral edge, where N is an integer; and a controller for controlling driving of said edge region heating element, so as to suppress color development of said edge region heating element in at least one predetermined line on said recording material. It is these limitations found in the claims, as they are claimed in the combination of that has not been found, taught or suggested by the prior art of record, which makes these claims allowable over the prior art.

The primary reason for allowance of claims 10-15 is the inclusion of a method steps of a thermal printer that includes detecting said first lateral edge, in response to detecting said first lateral edge, determining N edge region heating element included in said heating elements, opposed to said recording material, and disposed close to said first lateral edge, where N is an integer; and controlling driving of said edge region heating element, so as to suppress color development of said edge region heating element in at least one predetermined line on said recording material. It is these steps found in the claims, as they are claimed in the combination of that has not been found,
